

N

NERVE

An AI conversation gym

Helping young adults speak with confidence in dating and job interviews.

The problem

The conversations that matter most are the hardest to rehearse.

A first date or job interview changes with every answer. Practice alone cannot reproduce hesitation, interruption, or rejection.

NERVE STARTS WITH REALISTIC VOICE PRACTICE

A conversation gym

VOICE REPS

Speak out loud with an AI character who responds in the moment.

The dating rep lasts three minutes. The character can lose interest, get distracted, or say no.

PRO PLAN

You also have a free practice interview
Five minutes against a real interviewer, graded. It is already in the account.

YOUR MISSION · CURIOSITY

Ask one open follow-up, then go a second layer down on the same answer.

DONE WHEN You followed one of her answers twice instead of changing the subject.

LEVEL 04 ~ AMBIGUOUS

ROBIN

HOTEL LOBBY, EARLY EVENING

Her car is fifteen minutes late and she is in no hurry about it.

RANK

CONTENDER

ROOKIE REGULAR **CONTENDER** CLOSER

You can keep one going with someone who is not helping you.

NEXT · SCORE 70+ IN 2 REPS AT LEVEL 4

TODAY IN THE FIELD

TIER 3

ASK WHAT THEY ARE READING.

Somebody with a book, a magazine, a record in their hand. Ask what it is and whether it is any good.

I'M DOING IT

SWAP

LAST REP

Interview practice

SECOND USE CASE

Candidates practice with an interviewer who has read their CV and role.

Rounds run 5 to 25 minutes. Technical rounds can assess answer accuracy as well as delivery.

Feedback on what users can improve

AFTER EACH REP

A scorecard identifies the moment the conversation changed.

Nerve grades how the user spoke, including questions, listening, and composure. A rejection can still be a strong rep.

The practice loop

01 Voice rep

A timed conversation creates a real attempt.

02 Scorecard

The user sees one concrete behavior to improve.

03 Next mission

The next rep targets that behavior.

04 Real-world challenge

The user tries the skill outside the app and logs what happened.

Business model

SUBSCRIPTION VOICE PRACTICE

\$19

Pro / month

3 dating voice reps per day

\$49

Elite / month

6 dating voice reps per day

INTERVIEW PACKS

\$6 / \$20 / \$45

2, 8, or 20 one-time credits

Every account starts with one free dating rep and a five-minute interview screener.

Early evidence

89

dating sessions

Across 17 user accounts in an internal product audit.

0 / 42

visit-to-account conversions

TikTok and Meta visits, 4–10 Sep. The sign-up flow was then instrumented and changed.

These are learning signals, not proof of repeat paid demand.

Customer focus

ENTRY SEGMENT

Young adults who avoid starting conversations

The dating track offers short, repeatable practice and a real-world challenge.

ADJACENT SEGMENT

Candidates preparing for early career interviews

The interview track adds rounds tailored to a CV and a one-time credit purchase.

Go-to-market test

US LAUNCH EXPERIMENT

Short-form content

Show one recognizable conversation mistake and the rep that corrects it.

Creator referrals

Test small paid creators while measuring each step from visit to first rep and purchase.

The planned 60-day budget is \$340. The decision metric is paid, repeat use.

Founder

Pabath
Wedamuhandirama

Solo founder based in Sri Lanka

Nerve is live with voice reps, scorecards, billing, and an interview track.

The ask

Raising \$100k

Capital to test whether voice practice becomes repeat paid behavior.

MILESTONES FOR THIS ROUND

Validate the acquisition funnel. Prove paid conversion and retention. Improve voice quality and reliability with real users.
